DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 64, line 1, "source" has been changed to --device--.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose a room-temperature source of polarized single photons and a preparing method therefor, having, a planar aligned liquid crystal host, disposed on the substrate, with a single light-emitting dye molecule or other single fluorescence emitter exhibiting antibunching characteristics, being embedded in the host, for aligning molecules of the light-emitting dye or other fluorescence emitter along a preferred direction (claims 1 and 24). Claims 64-126 were allowed for reasons made of reasons. The remaining claims 2-23, 25-63, 127 and 128 are allowed by virtue of their dependencies from the independent claims. Hence, the examiner has allowed claims 1 through 128.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
